POELLATH advises the management of INNIO on its Nasdaq IPO

INNIO Group (“INNIO”), a global leader in decentralized energy solutions, has successfully placed 90 million common shares at a price of USD 27 per share on the Nasdaq in connection with its initial public offering. The offering size was increased by 15 million shares compared to the originally planned 75 million shares. The main shareholder remains Al Alpine, a joint venture between Advent International and the Abu Dhabi Investment Authority.

The transaction consists entirely of a secondary share offering by the previous sole shareholder; INNIO itself is not offering any common shares and will not receive any proceeds from the sale of the shares. The company’s shares began trading on the Nasdaq Global Select Market under the ticker symbol “INIO” on June 4, 2026. The transaction closed on June 5, 2026. It represents one of the largest U.S. IPOs to date by a company from the DACH region.

Headquartered in Munich, INNIO employs more than 5,000 people worldwide and provides reliable, flexible, dynamic, decentralized, modular and efficient energy solutions for data centers, microgrids, grid stabilization, industrial energy supply, and gas compression. With a global presence in around 100 countries, the company enables scalable, behind-the-meter power generation with high efficiency, fast start-up capabilities, strong load-following performance, and high fuel flexibility, including hydrogen-ready solutions.

POELLATH provided legal and tax advice to the management of INNIO on their management participation in connection with the IPO with the following Munich-based team:

- Dr. Benedikt Hohaus (partner, management participation, M&A/PE)
- Dr. Nico Fischer (partner, tax)
- Silke Simmer (counsel, management participation, M&A/PE)
